PROFESSIONAL SUMMARY

Motivated Computer Science graduate with strong understanding of **C# .NET, MVC architecture, SQL Server, and software development lifecycle**. Hands-on experience in developing, testing, and troubleshooting backend applications with exposure to **Agile development practices**. Strong analytical and problem-solving abilities with clear communication skills. Seeking a **Trainee – .NET C#** role at **YASH Technologies** to contribute to enterprise application development and continuous improvement initiatives.

CORE SKILLS

- C# .NET Application Development
 - ASP.NET MVC Architecture
 - RESTful API Development
 - Microsoft SQL Server & SQL Queries
 - Software Development Life Cycle (SDLC)
 - Agile / Scrum Methodology
 - Troubleshooting & Incident Resolution
 - Enterprise Application Development
 - Requirement Analysis & Documentation
 - Debugging & Code Optimization
 - Team Collaboration & Communication
-

TECHNICAL SKILLS

Programming Languages: C#, Java

Frameworks: ASP.NET, MVC

Database: Microsoft SQL Server, SQL

Web Technologies: HTML, CSS, JavaScript

Concepts: OOP, SDLC, Agile Development

Tools: Visual Studio, GitHub, VS Code

PROFESSIONAL EXPERIENCE

Software Engineer Intern – Application Development

Vangrove Tech Pvt. Ltd. | Dec 2024 – May 2025

- Worked as part of an **Agile development team** to deliver application features and enhancements.
- Designed and developed **C# .NET application components** following MVC architecture principles.
- Built and tested backend logic and APIs to support business requirements.
- Wrote and optimized **SQL queries** using Microsoft SQL Server for data storage and retrieval.

- Troubleshoot incidents and resolved service requests to ensure application stability.
 - Participated in design discussions and contributed to technical solution documentation.
 - Assisted in testing new functionality as part of continuous improvement initiatives.
-

PROJECT EXPERIENCE

Enterprise Job Portal Application – .NET & SQL

- Developed a web-based enterprise application using **C# .NET and MVC architecture**.
- Designed database schemas and implemented **SQL Server queries** for CRUD operations.
- Translated business requirements into technical components and application workflows.
- Performed debugging, testing, and validation to ensure quality and reliability.

Electricity Theft Detection System (Academic Project)

- Assisted in system testing, data validation, and result verification.
 - Gained exposure to structured problem-solving and application lifecycle concepts.
-

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Vignana Bharathi Institute of Technology, Hyderabad

Aug 2020 – May 2024

CGPA: 6.73 / 10

CERTIFICATIONS

- Java Programming Fundamentals – Infosys Springboard
 - Database Foundations – Oracle Academy
 - AWS Academy Cloud Foundations
 - AI-ML Virtual Internship – AICTE
-

ADDITIONAL INFORMATION

- Strong analytical, decision-making, and problem-solving skills
- Excellent verbal and written communication abilities
- Comfortable working in **fast-paced, Agile environments**
- Eager learner with interest in enterprise .NET application development
- Willing to work from Hyderabad and adapt to organizational requirements
